Additional Applications Acted Upon by the Physicians Think That Immigration Should

Be Suspended for a While. Dr. Wyman, surgeon general of the marine terday afternoon and this morning on the li- hospital service, thinks that cholera has by no means been wiped out of Europe, and that there is great danger that the dread disease may appear in this country next spring. He says that the appearance of new cases in Hamburg at this county, and has a sister and other relathis season and the presence of the disease in Fitzhugh & Shute, 2028 14th st. n.w.; Charles Russia render the situation serious. Nine prominent New York physicians and

Nine prominent New York physicians and one Chicago physician have replied to the following inquiries propounded by the House and Senate immigration committees.

1. Is there, or not, a feeling of apprehension in the public mind and among physicians of a visitation from Europe of cholera in the spring or summer of 1893?

2. What is the character and extent of the sand observing money under false pretenses.

2. What is the character and extent of the danger according to your view of the subject?

3. What is the relation to immigration—the coming of European immigrants in the steerages of the steamships—of the danger from cholera, and what means, if any, connected with immigration should be at once adopted to prevent the introduction of cholera during the coming year. coming year? What would be the effect of the on for one year from March 1, 1893, of all immigration, except from North and South American countries, the law to be so framed as

American countries, the law to be so framed as not to hinder the free return of Americans or easy admission of visitors?

The New York physicians are: Drs. Joseph E. Winters, W. A. Ewing, George F. Shrady, A. Loomis, Lewis A. Sayre, Joseph D. Bryant, Cyrus Edson, Stephen Smith and Dr. Janeway. They all express the opinion that there is a positive danger of a cholera epidemic in this country next spring if the strictest precautions are not taken, and believe that immigration should be suspended for a while.

Dr. Elmer Lee of Chicago expressed the opinion that an efficient quarantine before embarkation of immigrants and also before their

barkation of immigrants and also before their landing in this country will be a sufficient safeguard without suspending immigration.

TRIED THE DOCTOR AND ALMOST EVERY-THING I COULD THINK OF, BUT NOTHING HELPED ME.

THOUGHT I WOULD TRY CUTICURA REME-DIES. IN ONE WEEK I WAS CURED.

I tried the CUTICURA REMEDIES and they did everything for me. My head and body were covered with some kind of sores, and I tried almost everything I could think of, and finally I tried the doctor, but bought the CUTICURA, CUTICURA SOAP and the CUTICURA RESOLVENT, and one week after I began using them my sores dried up and I have not had them since.

Mrs. E. A. JONES, McIntosh, Ga.

CUTICURA NEVER FAILED. I have been using your CUTICURA REMEDIES for several years, especially the CUTICURA, and it has never failed to do what is claimed for it. It is about

the only remedy I keep in my house all the time. I would not be without it for money. I think it is the best skin cure in the world. I use it for all kinds of sores, new or old, and it always cures them.

Prof. J. W. PORTIS,

Davis Military School, Winston, N. C.

I had a very severe case of what the doctors called ring worm or tetter on my foot. After trying several of the best physicians for over a year without benefit was induced to try your CUTICURA REMEDIES.
